

THE
DOME
INTERIOR HOUSE

REFERENCES

Interior House the Dome combines a comprehensive approach and the latest technologies in the field of design and architectural solutions. The company has established itself as an executor of prestigious commercial and residential projects. The main direction of work is the implementation of projects of high-class hotel complexes. The company's portfolio includes the completed projects of restaurants, shops, private houses and cottages. Interior House the Dome – one step from conception to implementation!

OURPROJECTS

Four-star Hotel Old CONTINENT hotel complex

The Interior House the Dome company is renovating the legendary four-star hotel in the historic centre of Uzhgorod, which over the past 15 years has become a traditional venue for international diplomatic meetings at the highest level. The project includes major renovation of roomstock, the reception area and the restaurant. The project also includes the construction of a new restaurant of a “View Restaurant” format as well as converting the terrace in the inner courtyard into a modern conference hall. In addition to providing full design and architectural support, The Dome provides professional consulting services regarding furnishing and full set for roomstock in accordance with modern requirements for 4* and 5* hotels in compliance with European standards. At present, the project is at the stage of implementation.

Date: at the implementation stage

Area: 5636 sq.m

Location: 4, S. Petöfi Sq., Uzhgorod

Full wall décor – Easy Wall quick-assembly wall panels

Connection – Easy Line decorative aluminum moldings

Light – The Dome Light designer lamps

Sanitary unit – bathtub, floor and walls made of natural Travertine stone

Washbasin – The Ceramics Dome ceramic tile

DARLIN' Restaurant & Lounge restaurant complex

You can call prominent one of the last projects for the newly created restaurant complex, which includes the main lounge hall, a small banquet hall and a large conference hall, having no analogues in the region at present.

The main lounge zone focuses on the combination of the maximum bright saturated colours and charming subdued light.

The small banquet hall is characterized by restraint and solemnity. The centre of the composition is an impressive hanging chandelier.

The large conference hall with a capacity of 500 people is designed in a modern style with classic elements in pastel shades, the walls of which are completely decorated with Smooth Easy Wall panels and Easy Line decorative holdings.

Materials:

Fullwall décor – Smooth Easy Wall quick-assembly panels

Light–The Domelightdesigner lamps

The bar counter –a large-format porcelain tile with an infinite pattern

The designer washbasin in the guest bathroom is made of porcelain tile

Date: October 2022

AVL brand sunglasses store

The company has designed and implemented a series of projects for commercial and retail facilities, one of which is the AVL brand glasses chain store. High-quality materials, style in every centimeter and an individual approach formed the basis of the concept of work on this establishment.

For the implementation of the project, a matte ceramic large-format floor tile with a unique infinite pattern was used, the shelves were made of Smooth Easy Wall panels, and the three-dimensional ceiling was decorated with a metal mirror plate. Ribbed/Solid Easy Wall textured wall panels became a flawless background for stylish glasses.

Show-room of designer lamps

The main design idea is to create an atmosphere where designer lamps will be advantageously placed in the interior. The space of the establishment was logically zoned, which made it possible to maximally integrate designer lamps into the interior and achieve the desired effect. The ceramic tiles with The Ceramics Dome composite pattern and Solid Easy Wall textured wall panels served as the ideal material for realizing this idea. Due to the use of different textures and colours, the space of the show-room allows creating and constantly updating trendy lighting concepts.

Materials:

Wall décor– Ribbed Easy Wall quick-assembly panels and The Ceramics Dome ceramic tiles

The floor – The Ceramics Dome matte ceramic tile

Date: October 2022

Area: 57 sq. m.

Location: Mukachevo

SOHO cottage complex

In addition to commercial projects, Interior House the Dome constantly deals with large residential projects. One of the last, being currently at the stage of implementation, is the SOHO cottage complex. The facility includes 73 townhouses, duplexes, and detached houses located on a total area of 4 hectares. The main criteria when choosing materials for interior décor of cottages were aesthetics, relevance, quick installation and favourable price policy. Easy Wall wall panels, which were used for full wall décor, meet these requirements. Ceramic tiles with an infinite pattern were used for additional visual accents in the TW-wall area and the kitchen.

Materials:

Walls – Smooth/Solid/Ribbed Easy Wall quick-assembly panels

Light – The Dome Light designer lamps

Date: at the implementation stage

Area: 10,950 sq. m.

Location: Kontsovovillage, Uzhgorod district.

Easy Wall as part of interior solutions

It is worth noting that due to their aesthetics and functionality, Easy Wall quick-assembly wall panels are widely used not only for full décor of turnkey objects, but also as decorative accents in the interior as well as for space zoning.

Since Interior House the Dome is a wide-profile company, it is practically impossible to include all implemented projects in this list. The above objects are the newest and most relevant in the organization's portfolio. However, the company is open to new challenges and is ready to work on them with maximum efficiency for a successful result.
